DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

2. Claims 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 21 and 22 are indefinite because they are directed to a subject matter that is patentably distinct from the subject matter of claim 7 from which they depend. Note that claims that are directed to "sintered dielectric ceramic and method of making thereof" have been held patentably distinct and restricted from the elected claims which are directed to "sinterable dielectric ceramic composition". See Office Action mailed June 26, 2008.

Allowable Subject Matter

3. Claims 1, 4-9, 11, 12, 19-20 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: Ceramic compositions containing SrTiO₃ or Ti-based dielectric particles as the main component and zinc titanate as dopant or secondary component are known. However, zinc titanate as a coating on dielectric particles comprising the specific Ti-based dielectric particles as claimed has not been produced by the prior art.

Claim Objections

5. Claim 10 is objected to because of the following informalities: The "TiO process" as recited lacks clear antecedent basis. It's suggested that "TiO" be replaced with "calcining" as described in claim 7 upon which claim 10 depends. Appropriate correction is required.
6. Claim 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Election/Restrictions

7. This application contains claims 13-18 drawn to a non-elected invention, the election of which has been held as being without traverse in the last Office Action. It's recommended that a reply to the final rejection include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
